Dear Sir/Madam:

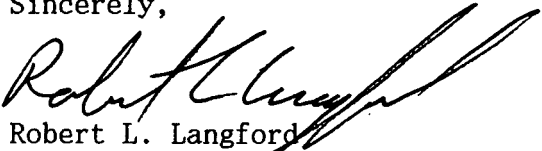

I've noticed a small hand lettered sign on the North East corner of Gilliland Rd. and I-64 that says some type of "Tower" will be erected at that site and if you have any comments to contact you and the Public Service Commission.

First I would like to know what type of "Tower" you are planning on putting up? We already have one cell phone tower on Gilliland why can't you rent space on that tower instead of erecting another one? Also, since this is inside Jefferson County doesn't the Planning Commission have to hold a hearing on the matter?

I'm not against progress, my wife and I both have cell phones, but these towers are popping up like weeds all over the county. I think a concentrated effort needs made to reduce the number of them and to design the ones that go up to blend in better with the environment than the current steel truss design.

I would be quite interested in knowing what you have planned for this location.

Sincerely,

  
Robert L. Langford
